

## About Regina

regina@mooj.me · 022 133 9552

I'm a communication designer, an entrepreneur and a citizen of the world. I feel blessed that I discovered my passion for design at a young age – and this passion continues to grow.

Gaining new skills and learning drives me. I love to create a great user experience in my designs. No matter if branding, print, web or mobile – I design for people.

In 2014 I began developing a music app for iOS called MOOJ®. It is a personalised music playlist generator learning about your specific listening habits. The current version is live on the App Store.

In my spare time, you will find me tramping, surfing or anywhere outdoors. I'm also interested in music, culture, people, food and the environment.

## Skills:

### Professional

User Experience  
Communication  
Teamwork  
Entrepreneurship  
Management  
Marketing  
Empathy

### Programming

HTML  
CSS  
Bootstrap
